REVISED: 7.14.05

⚠ WARNING

- Martial Arts weapons training and competition can be dangerous. To decrease the chances of injury, disability, and death, the user should: respect the weapons, inspect them before each use to ensure they are in proper condition, and not use them for sparring or contact.
- Macho Martial Arts weapons are only for training under expert supervision, for demonstration of forms, for collection, or for display.
- Weapons training requires: (1) appropriate safety gear, including head, face, eye, and mouth protection and other guards suitable for the particular weapon and techniques being practiced and (2) a safe training environment set up to avoid injury to people and damage to objects.
- For greater safety, Macho recommends that instructors limit children and beginners to the use of foam rubber or foam-covered practice weapons and/or wooden blades.
- Some weapons may be illegal in the user's area; the user must research and follow state and local laws. Macho is not responsible for improper or illegal use or modification of its weapons.
- Weapons will not be sold to anyone under 18 years of age.
