# Macho Direct To Garment Printing

## THE PROCESS:

Direct to Garment (DTG) printing uses a specialized software and printer to produce photographic quality images directly onto fabric. The ink printed from the machine onto the fabric is extremely soft and has a much better “hand” or feel when complete. Once the printing is complete, the garment is heat pressed which cures the image onto the fabric and makes the image durable through wash and wear.

Prints best on 100% ringspun cotton fabrics.

## ARTWORK REQUIREMENTS

Since DTG is printed directly onto the product, there is not a lot of prepwork required. The artwork can be supplied in many types of formats. Multiple colors and gradients are not an issue.

- Always supply files in 300 DPI
- .PNG files with transparent background in RGB
- .AI, .PDF, .EPS, .JPG must be saved in CMYK
- Fonts in file must be converted to outlines or include all font files used
- File must be saved at size to be printed

## SET UP CHARGES:

If artwork supplied is sized and 100% ready to import and print, there will be no set up charges. If there is work required to manipulate the file, an estimate will be supplied at a rate of \$35 per hour.

## NO MINIMUM ORDER REQUIRED

## SUGGESTED IMPRINT SIZES & LOCATIONS

- Uniform Jacket Back or T-Shirt: 14”W x 16”H
- Uniform or T-Shirt Lapel: 4”W x 4”H
- Uniform Pant Leg: 3.5”W x 16”H

## IMPRINT COLORS:

Prints an infinite number of colors using a print dot pattern from CMYK printer inks.

Imprint Area	White/Light Garment	Colored/Dark Garment
Up to 4” x 4”	\$2.50	\$3.75
Up to 12” x 12”	\$5.00	\$7.00
Up to 4” x 16”	\$2.50	\$3.50

**IMPRINT FEES:**  
Fees are per location and added to the cost of the garment or product.

- No Minimums.
- Photographic Quality
- More artwork options
